Instructor: Daniel S. Buckstein
Conference Seminar

Summary:
The conference seminar is used to present your research and ideas at academic and/or industry conferences. This presentation is paired with the research paper and could be the very thing you bring to conferences like SIGGRAPH or GDC.

Submission:
Please submit the following:

- Your final presentation as a PDF or a link to the slides.
- Links to any additional materials.

Requirements:
Design requirements: These count towards the organizational part of the project:

- Slide deck and relevant materials.

Content requirements: These count towards the implementation part of the project:

- The seminar adequately walks viewers through the research process and takeaways of the project.
- Do not simply read the paper; find a way to summarize and visualize the details.

Presentation requirements: These count towards the demonstration part of the project:

- Be professional, as if you're presenting to industry and/or academia.
- The actual presentation/seminar is well-presented and formatted appropriately.
